

Liste der etablierten und validierten Messmethoden für Wirkstoffe und Wirkstoffmetabolite

- | | | | |
|-----|--------------------------|-----|------------------------------|
| 1. | Amiodaron + Metabolit | 48. | Medazolam |
| 2. | Clozapin +Metabolit | 49. | Midazolam |
| 3. | Reboxetin | 50. | Tetrazepam |
| 4. | Sertralin | 51. | Lorazepam |
| 5. | Carbamazepin +Metabolit | 52. | Primidon |
| 6. | Lamotrigin | 53. | Theofyllin |
| 7. | Mesuximid | 54. | Valproinsäure |
| 8. | Oxcarbazepin + Metabolit | 55. | Amikacin |
| 9. | Phenobarbital | 56. | Gentamycin |
| 10. | Phenytoin | 57. | Tobramycin |
| 11. | Sultiam | 58. | MTX |
| 12. | Amitriptylin + Metabolit | 59. | Amprenavir |
| 13. | Nortriptylin | 60. | Atazanavir |
| 14. | Clomipramin + Metabolit | 61. | Indinavir |
| 15. | Imipramin + Metabolit | 62. | Lopinavir |
| 16. | Desipramin | 63. | Nelfinavir |
| 17. | Maprotylin + Metabolit | 64. | M8- Nelfinavir |
| 18. | Doxepin + Metabolit | 65. | Ritonavir |
| 19. | Trimipramin | 66. | Saquinavir |
| 20. | Coffein | 67. | Tipranavir |
| 21. | Levetiracetam | 68. | Efavirenz |
| 22. | Cipramil | 69. | Nevirapin |
| 23. | Duloxetin | 70. | Sirolimus |
| 24. | Fluoxetin | 71. | Tacrolimus |
| 25. | Flurazepam + Metabolit | 72. | Everolimus |
| 26. | Fluvoxamin | 73. | Cyclosporin |
| 27. | Paroxetin | 74. | Mirtazepin |
| 28. | Perazin | 75. | Haloperidol |
| 29. | Gabapentin | 76. | Quetiapin |
| 30. | Pregabalin | 77. | Olanzapin |
| 31. | Vigabatrin | 78. | Risperidon + Metabolit |
| 32. | Bromazepam | 79. | Venlafaxin + Metabolit |
| 33. | Chlordiazepoxide | 80. | Humaninsulin |
| 34. | Clobazam + Metabolit | | |
| 35. | Diazepam + Metaboliten | | Weitere Methoden auf Anfrage |
| 36. | Temazepam | | |
| 37. | Oxazepam | | |
| 38. | Trazodon | | |
| 39. | Ethosuximid | | |
| 40. | Flecanaid | | |
| 41. | Mycophenolat | | |
| 42. | Mianserin | | |
| 43. | Thiopental | | |
| 44. | Alprazolam | | |
| 45. | Itroconazol | | |
| 46. | Voriconazol | | |
| 47. | Zonisamid | | |
